MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Report of Action Taken by the Office of Logistics  
Based on Findings of the Inspector General's  
Office

REFERENCE : (a) Inspector General's Report to the DCI on  
Survey of the Office of Logistics, dtd  
22 Jan 55

(b) Memo to DDCI fr DD/S dtd 12 Mar 55, re  
IG Survey of the Office of Logistics dtd  
22 Jan 55

1. In accordance with the requirements of Reference (a), submitted herewith is a report indicating the status of action taken on the recommendations of the Inspector General made as a result of his survey of the Office of Logistics. The majority of these recommendations have been completely implemented, and every effort is being made to consummate action on the others. In many instances, however, implementation of the recommendation requires the coordinated effort of two or more Agency components.

2. In order to facilitate the analysis of the initial report of action to be taken (Reference (b)), the recommendations were segregated into four categories, namely, Concur - Office of Logistics Implementation; Concur - Joint Implementation with other Components; Concur - Modifications Recommended; and Non-Concur - Basic Objections. This same format has been followed in this report and the status of each category is shown below.

Tab "A" - Concur - Office of Logistics Implementation

Action Completed	45
Action in Process	21
Reconsidered - Non-concur	4
Total - - -	70

SECRET

Tab "B" - Concur - Joint Implementation with other  
Components

Action Completed	11
Action in Process	16
Reconsidered - Non-concur	3
Total - - -	30

Tab "C" - Concur - Modifications Recommended

Action Completed	7
Action in Process	4
Total - - -	11

Tab "D" - Non-Concur, Basic Objections 16

3. In summary of the 127 recommendations, 63 have been completely implemented, 41 are in process of implementation, and 23 are not concurred in. This latter figure includes 7 recommendations previously concurred in, but additional study indicates adoption is not feasible at this time. These are indicated by an asterisk in the attachments.

4. The total effect of the adoption of these recommendations cannot be accurately measured at this time. It is evident, however, that based on actions already taken, the effectiveness of the Agency's logistics system has been increased and more adequate controls are being maintained.
